

3/4", 1", 1.5" and 2" Large-Capacity Filters

Extra large filtration capacity significantly reduces maintenance costs by extending the time between required cleanings, in residential commercial, and municipal application.

3/4" - 1"

1.5" - 2"

Current line of filters

NEW Large-Capacity Filters

KEY SELLING POINTS

- **Filtration Area**

Larger filtration area equals less frequent cleaning, which lowers overall maintenance costs.

- **Disc Filtration Option**

Ideal for dirty water supplies due to increased filtration area. Particularly effective for water with high organic content.

- **Higher Allowable Flow Rates**

These filters are ideal for large irrigation zones that require a higher flow rate.

- **Quality**

When you sell *Rain Bird*, you sell dependability and peace of mind.

Screen Filter

The (130 micron) screen filters are easy to clean and provide reliable filtration.

Recommended for municipal water supply.

Durable: Mesh is made of durable 316 Stainless steel (AISI). The frame is made of polypropylene.

Easy to Clean: Just rinse and replace.

The screen filters are easy to clean and provide reliable filtration (130 micron). The screen filters are made from stainless steel and a polypropylene frame.

Features

- Disc and Stainless Steel Screen filtration options
- Up to 10X increase in filtration area
- Sizes ranging from 3/4" to 2" BSP
- Max flow rates up to 25m³
120 mesh/130 micron filtration level

Disc Filter

These filters are made up of hundreds of grooved discs that allow water to pass while trapping debris. Less maintenance required due to the large surface area.

Recommended for water with high organic contents.

The stacked disc filters provide efficient, thorough filtration (130 micron). The disc filter frame and discs are made of polypropylene.

Durable: Made of long-lasting engineering-grade plastic.

Movable Discs: threaded closure system locks discs into place while in operation and allows them to decompress for easy cleaning of the filter unit.

How to Specify

ILCRBY – 200 – S

Filter Type:
(S) Screen
(D) Disc

Inlet/Outlet Size:

075 = 3/4" BSP
100 = 1" BSP
150 = 1.5" BSP
200 = 2" BSP

Model Type:
Large-Capacity
RBY Filter
